### Board Meeting News

The Board met on September 11 with the following in attendance: Ted Bock, Amy Hills, Vern Sullenger Don Hughes and Wilma Winings. Since the board members had other commitments, those attending discussed several issues. First was the Lunch at the Airport which was determined to be quite a success with over 250 in attendance. With a possibility of a few more expenses, the profit to date of \$699.37 was realized. The Hendricks County Orchestra was again a good addition to the day's enjoyment. Due to IFR conditions, only one plane arrived. Occupants were flying friends of Amy Hills. There was much interest in the Medivac Helicopter and the Danville Fire Department engine unit and medic unit. Winners of a free plane ride were: Dustin Fish, Tom Kingseed, Loren Crook and Ranita "Peach" Clark. They will make arrangements with Dick Stevens for their free ride. ( Photos of the event are presented on pages that follow.)

Suggestions for the program for the Dedication of the Bricks were discussed. The latest 10 bricks to be installed are the ones to be dedicated. Ted Bock will secure comments (from the donors of the bricks) which will be used during the dedication. (Editor's note: Due to the fact the plans are not complete, the dedication target date for this event will be the October cookout.)

Next was September cookout plans and it was decided to provide fried chicken this month.

Our Christmas party will be held on December 7 and Vern volunteered to contact Steve Manning to see if he is available to entertain. There being no further business, the meeting adjourned.

**SUCCESSFUL LUNCH AT THE AIRPORT**

(EVEN THOUGH CONDITIONS WERE IFR)

It was one of our best LATA events to date with over 250 attending including lots of children (future pilots, no doubt.) As in past years, a special thanks goes to all those working the different areas to make the event outstanding. That includes the cashiers, the cooks, the food servers (sandwiches, baked beans, and desserts), the tea, lemonade and soft drink servers, the crew who maintained order on the ramp (Ramp Rats), the exhibitors (model planes, University personnel, Danville Fire Department, the Medivac helicopter crew), the Hendricks County Symphony, those who arrived early to set up the tables and chairs and the Airport Authority for reducing the price of fuel. And special thanks also goes to our members who brought the delicious desserts for serving to our guests. All in all, it was a fantastic day.
